ZUM

OVERVIEW

DURATION: 2019 – 2026

OBJECTIVES

1. Addressing key bottlenecks (faster and cost-efficient) implementation.
2. Capacity building of crucial stakeholders.
3. Efficient monitoring system (OP GHG implementation).
4. Cross-sector emission reduction.

BUDGET:

TOTAL: 27,1 mio EUR

EU Contribution: 7 mio EUR

Targeted strategic document: OP GHG 2020 with a view to 2030

1. Covering main GHG source sectors with highest GHG reduction potential
2. Addressing lack of systematic awareness raising of relevant target audiences
3. Mobilise other financing sources for low carbon investments

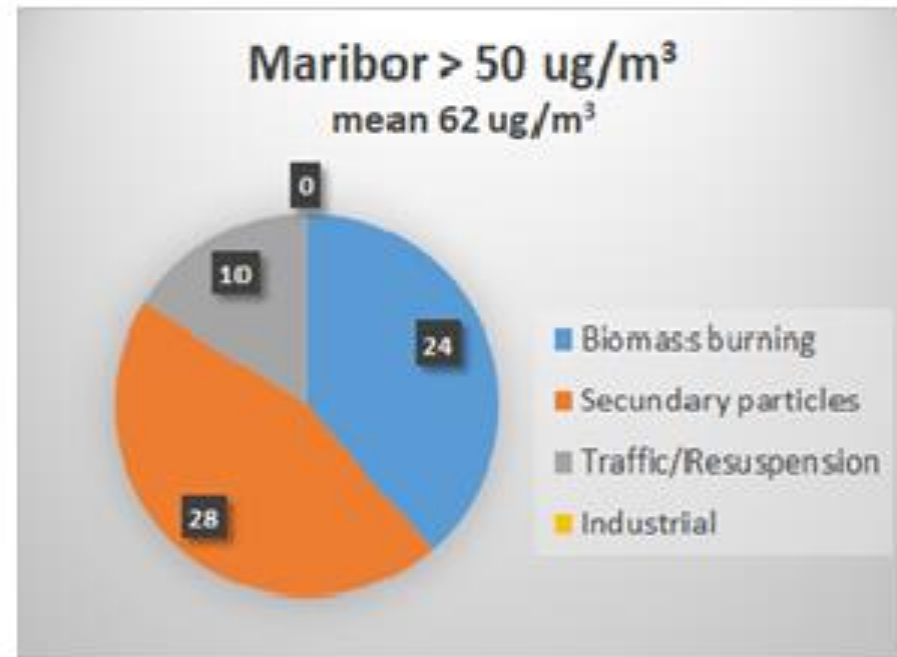

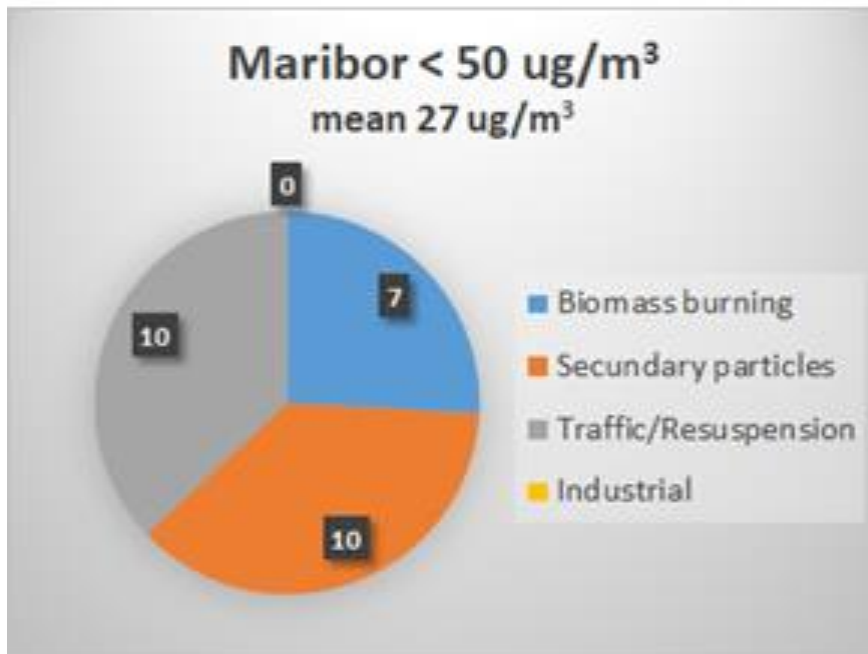

Preparatory actions for LIFE IP on Air project

1. **LIFE IP workshops with potential partners within LIFE CB SI 2016 – 2019**
2. **Identification of partners**
3. **Identification of project activities for LIFE IP on Air project**
4. **Learning from the best (study visit to LIFE IP MALOPOLSKA in March 2019)**
5. **LIFE IP CN in September 2019**
-
6. **Hard work**

Source apportionment analyses for urban background station in Maribor

Preparatory actions for LIFE IP on Air project

Annual No. of exceedance of daily limit value for PM10 in Slovenia

	LJ	MB	KR	CE	NM	MS	ZS	Σ
2011	94	64	55	73	69	71	75	501
2017	51	35	28	57	33	44	46	294
2018	51	30	13	45	31	46	55	271
2019	16	43	8	23	10	28	28	156
2020	16	15	5	22	10	17	17	102

Preparatory actions for LIFE IP on Air project

Objectives

- 1. Increased resources and competences for reduction of emissions from biomass burning**
- 2. Increased use of public transport in local communities, increased use of non-motorized transport, reduced emissions of air pollutants from transport.**
- 3. Maintained and upgraded equipment and tools for monitoring, forecasting and evaluating air quality.**
- 4. Raising awareness and level of information on the health risks of polluted air. Improved cross sector communication and cooperation on the importance of action for improved air quality.**

Preparatory actions for LIFE IP on Air project

ACTIONS

- 1. A. Promotion of low emission heating practices focused mainly on biomass burning**
- 2. B. Promotion of Sustainable mobility**
- 3. C. Monitoring and evaluation**
- 4. D. Communication, raising awareness and dissemination**
- 5. E. Project management**
